Dr. Michael Gardam, Lead, Canadian Positive Deviance Project

Accreditation Canada (TBA)

**Come and Immerse Yourself  
in Medication Reconciliation!**

**Two Day Workshop: \$195**

**Register Now!**

## Key Objectives

- Identify collective opportunities for a regional and provincially-coordinated approach to support implementation of Medication Reconciliation.
- Examine and discuss approaches to Medication Reconciliation at discharge.
- Explore opportunities for using current information technology solutions to support implementation of Medication Reconciliation.
- Learn how to use Positive Deviance to make Medication Reconciliation a success.
- Identify and develop solutions to eliminate redundant processes in Medication Reconciliation (e.g., practice agreements, documentation changes).
- Develop strategies for measurement and collection of data for Medication Reconciliation at various transitions in care.
- Explore opportunities to involve community pharmacists, physicians and other partners.
- Develop basic quality improvement skills and knowledge that will contribute to successful implementation of Medication Reconciliation processes.

Participants from BC will receive priority for registration. Participants from other Western provinces (AB, SK and MB) are welcome to join if space is available.
